

Steward\$hip Work\$hop

\$teward\$hip Work\$hop

presented by

Canon Charles Perfater
and the Stewardship Commission

The Diocesan Stewardship Commission will present an interesting, interactive workshop that will capture the attention of all attendees. In these days of seemingly meager discretionary money in our pockets, we will open your eyes to sources of real abundance through scripture and transformational thinking about stewardship.

Almost every diocesan church is finding itself in a financial struggle, and in the majority of cases the issue is revenue. While sound stewardship has virtually nothing to do with church budgets, the product of sound stewardship can enhance congregational cash flow.

Just about every congregation we have worked with has seen the benefits of a new way to view and implement effective stewardship techniques.

We welcome your involvement, so join us for an enlightening work\$hop!

Workshops are on Saturday, March 3 at 9:45 a.m. in the Grand Ballroom
